EDUCATION

2006 **Ph.D., Forest Engineering**, Oregon State University, Corvallis, OR.
2005 **M.F., Forest Science**, Oregon State University, Corvallis, OR.
2002 **M.S., Forestry**, Auburn University, Auburn, AL.
2000 **B.S., Forestry**, Auburn University, Auburn, AL.

PROFESSIONAL EXPERIENCE

06/2022 – **Professor and Langdale Endowed Chair in Forest Business**
Harley Langdale Jr. Center for Forest Business,
Warnell School of Forestry and Natural Resources,
University of Georgia, Athens, GA.
07/2020 – 05/2022 **Professor of Forest Operations/Engineering**
07/2012 – 06/2020 **Associate Professor of Forest Operations/Engineering**
08/2008 – 06/2012 **Assistant Professor of Forest Operations/Engineering**
Department of Forest Resources and Environmental Conservation,
Virginia Polytechnic Institute and State University, Blacksburg, VA.
08/2006 – 08/2008 **Assistant Professor of Forest Operations and Harvesting**
Department of Forestry and Natural Resources, Clemson
University, Clemson, SC.

TEACHING EXPERIENCE (LEAD INSTRUCTOR)

2009 - 2020 Timber Procurement (FREC 3734)
2008 - 2021 Forest Harvesting (FREC 3714)
2010 - 2021 Harvesting Systems Evaluation (FREC 4714)
2010 - 2021 Advanced Harvesting Systems Evaluation (FREC 5714G)
2020 - 2021 Professional Skills in Natural Resources (FREC/NR 4004)
2021 - 2022 Forest Fiber Supply (FREC 3734)
2023 - Forest Business Sustainability (FORS 8600)

RESEARCH AND TEACHING INTERESTS

Forest harvesting logistics; forest business issues; engineering economic analysis; wood supply chain efficiency; fiber procurement; woody biomass utilization; environmental impacts and best management practices; workforce and safety issues; professional skills and career preparedness

GRADUATE STUDENT ADVISING AND RELATED TEACHING AWARDS

- Chair or co-chair for 31 completed graduate students (3 MFR, 14 MF, 7 MS, 7 PhD)
- 5 current students (3 MFR, 1 MS, 1 PhD)

- 2020 Outstanding Graduate Student Mentor Award, College of Natural Resources and Environment, VT - Awarded by the Graduate School to one faculty member in each college
- 2022 Certificate of Teaching Excellence and Outstanding Teaching Award, College of Natural Resources and Environment, VT - Awarded to one faculty member in each college
- 2022 Carl Alwin Schenck Award for Outstanding Performance in Forestry Education, Society of American Foresters – National award presented annually to one forestry faculty member at the SAF National Convention

SUMMARY OF ACADEMIC EXPERIENCES AND SUCCESSES

- Chair or co-chair for 31 completed (5 current) graduate students (7 PhD, 24 MS/MF/MFR) and recipient of the 2020 Outstanding Graduate Mentor Award, College of Natural Resources and Environment. The award is presented by the Virginia Tech Graduate School to one faculty member from each college for their role in supporting, encouraging, and promoting a positive and inclusive scholarly and teaching environment, and for contributing to professional and personal development of graduate students.
- PI or Co-PI of 50 research grants totaling \$24,523,689 with \$1,946,259 directly controlled and author or co-author of 72 peer-reviewed journal articles. I am Co-PI, leadership team member, and co-lead of the sustainability task of a current \$10 Million USDA AFRI SAS project entitled: Mid-Atlantic Sustainable Biomass Products Consortium (MASBio).
- Established a successful teaching program including: FREC 3714 Forest Harvesting, FREC 3734 Forest Fiber Supply, FREC/NR 4004 Professional Skills in Natural Resources, FREC 4714/5714G Harvesting Systems Evaluation, and FORS 8600 Forest Business Sustainability.
- Member, Institute for Integrative Precision Agriculture, University of Georgia. October 2022 – present.
- Former Director of the VT Forest Operations and Business Research Cooperative consisting of five-ten-member companies collaboratively participating in applied research (2008-2022).
- Participant in the 2021 VT College of Natural Resources and Environment *Academic Leadership and Administration Academy* designed to build academic leadership skills. Topics included: vision and management in leadership roles, funding and budgeting, advisory councils, government relations, advancement, and capital planning.
- Faculty Scholar, Inclusive Excellence at Virginia Tech (2019-2021) – one of a three-member Department of Forest Resources and Environmental Conservation faculty cohort. The purpose of the program, funded by the Howard Hughes Medical Institute, is to implement, assess, and improve the learning environments for students from underrepresented groups at VT.
- Developed a new course entitled: “FREC/NR 4004 Professional Skills in Natural Resources”. This course focuses on the “soft skills” that are necessary for professional success. Instruction included skills for effective and ethical professional interaction including written and oral communication, advancement of diversity and inclusion, and personal responsibility.
- Supervised and completed performance evaluations for a full-time research technician (2014 - 2022).
- Leader in appropriate professional societies and host of two international conferences.
- Associate Editor and Editorial Board Member for two peer-reviewed journals: *Forest Science* and *International Journal of Forest Engineering*.
- Service on numerous Department, College, and University committees. Recently served on the FREC Budget and Planning Committee and worked collaboratively with the Department

Head and other faculty members to develop a departmental strategic plan that aligned department, college, and university objectives and initiatives.

- Chair, FREC Department Head 5-year comprehensive review committee.
- University-level Promotion and Tenure Committee (College of Natural Resources and Environment representative, 2022).

CURRENT SPONSORED RESEARCH AWARDS (TOTAL: \$24,523,689; PI: \$1,946,259)

PEER REVIEWED JOURNAL PUBLICATIONS UNDER REVIEW (0)

-

COMPLETED GRADUATE STUDENTS (31 total – 7 PhD, 24 MF/MFR/MS)

- Knight, Carley R.D. May 2023. Log truck transportation challenges and innovative solutions: evaluating the perspectives of truck drivers, logging business owners, and foresters. MFR Paper, University of Georgia.
- Garren, Austin M. May 2022. Evaluating energywood harvesting operations in the Lower Mid-Atlantic region of the United States. PhD Dissertation, Virginia Tech.
- Hawks, Brent S. May 2022. Potential effects of forestry best management practices and implementation rates on soil and water resources in the Southeastern United States. PhD Dissertation, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Hawks, Eric M. December 2021. Best management practices, erosion, residual woody biomass, and soil disturbances within biomass and conventional clearcut harvests in Virginia's Coastal Plain. MF Paper, Virginia Tech.
- Cook, Emily B. May 2021. Assessing the characteristics and supporting factors that lead to logging machine value loss. MF Paper, Virginia Tech.
- Fielding, Jonah A.H. May 2020. Estimated erosion rates by forest operation and physiographic region in the southeastern United States. MF Paper, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Hawks, Brent S. May 2019. Four-year effects of high levels of forestry best management practices on observed stream sediments and streamside management zone blow-throughs. MF Paper, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Garren, Austin M. May 2019. Soil disturbance effects from tethered forwarding on steep slopes in Brazilian Eucalyptus plantations. MF Paper, Virginia Tech.
- Dangle, Chandler L. April 2018. Efficacy of operational stream crossing best management practices on truck roads and skid trails in the Mountains, Piedmont, and Coastal Plain of Virginia. MS Thesis, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Neaves, Charlie M. April 2017. Long term effects of wet weather harvesting and site preparation on soil properties and loblolly pine (*Pinus taeda* L.) productivity in the lower Atlantic coastal plain. MS Thesis, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Lang, Albert J. May 2016. Sediment delivery from forest haul roads at stream crossings as influenced by road attributes. PhD Dissertation, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Cristan, Richie R. April 2016. Effectiveness of state developed and implemented forestry best management practices in the United States. PhD Dissertation, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Parkhurst, Brian M. November 2015. Soil response to skidder and dozer traffic as indicated by soil stress residuals. MF Paper, Virginia Tech. (Co-chair with Dr. Mike Aust)

- Morris, Brian C. May 2015. Effectiveness, cost, and implications of forest haul road stream crossing structures and best management practices in Virginia. PhD Dissertation, Virginia Tech.
- Hanzelka, Nathan, C. May 2015. The prevalence and operational feasibility of utilizing pre-commercially thinned pine as a woody biomass energy source. MS Thesis, Virginia Tech. (Co-chair with Dr. Jay Sullivan)
- Saulnier, Will J. February 2015. Characteristics of Virginia's private forest landowners and their attitudes toward harvesting. MF Paper, Virginia Tech.
- Cockram, Drew G. May 2014. An analysis of unique biomass harvesting strategies in steep terrain of Virginia. MF Paper, Virginia Tech. (Co-chair with Dr. Scott Barrett)
- Lang, Albert J. November 2013. Streamside management zone failures associated with stream crossings, gullies, and harvests in the Piedmont. MF Paper, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Barrett, Scott M. June 2013. Operational adaptations and environmental implications on integrated biomass harvesting operations. PhD Dissertation, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Roberts, E. Talcott. June 2012. A ten year analysis of timber harvesting injuries in the Southeastern United States. MF Paper, Virginia Tech.
- Wear, Laura R. May 2012. Skid trail stream crossing closure techniques for protecting water quality. MS Thesis, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Groover, Miles C. December 2011. A comparison of chipper productivity, chip characteristics, and nutrient removals from two woody biomass harvesting treatments. MS Thesis, Virginia Tech.
- Chandler, Josh L. November 2011. Biomass harvesting effects on soil physical properties in the Coastal Plain of North Carolina. MF Paper, Virginia Tech.
- Conrad, Joseph L. August 2011. Anticipated impact of a vibrant wood-to-energy market on the U.S. South's wood supply chain. PhD Dissertation, Virginia Tech.
- Sawyers, B. Clay. May 2011. Effectiveness and implementation costs of overland skid trail closure techniques in the Virginia Piedmont. MF Paper, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Wade, Charlie R. December 2010. Evaluation of bladed skid trail erosion BMPs and determination of erosion model accuracy and applicability. MS Thesis, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Ford, Will S. May 2010. A comprehensive literature review of the impacts of forest harvesting systems on Appalachian hardwood stands. MF Paper, Virginia Tech. (Co-chair with Dr. Mike Aust)
- Dowling, Tripp N. May 2010. An analysis of log truck turn times at harvest sites and mill facilities. MS Thesis, Virginia Tech.
- Conrad, Joseph L. May 2010. Virginia's woody biomass market: opportunities and implications. MF Paper, Virginia Tech.
- Moldenhauer, Matthew C. February 2009. Parcelization of South Carolina's private forestland: loggers' reactions to a growing threat. MFR Paper, Clemson University.
- Lucas, Aaron C. January 2008. An assessment tool for examining impacts of recreational forest trail use on stream crossings. MFR Paper, Clemson University.

CURRENT GRADUATE STUDENTS (5)

- Paul DiGiacomo (MS): Evaluating the characteristics of wood pellet feedstock harvesting and fiber sourcing in the Southeastern U.S., *expected December 2024*, co-chair with Dr. Joe Conrad
- Thomas Black (MFR): Updating and modernizing the machine rate for selected harvesting machines, *expected December 2024*, co-chair with Dr. Joe Conrad
- Aaron Titshaw (MFR): Smart forest harvesting operations: using artificial intelligence to improve management and logistics, *expected December 2024*, co-chair with Dr. Joe Conrad
- Hannah Bays (PhD): Biomass harvesting sustainability, *expected May 2025*
- Camila Quintana (MFR): Forest business, *expected December 2025*

CURRENT POSITIONS HELD BY FORMER GRADUATE STUDENTS

- Barrett, Scott M. (PhD) - Associate Professor of Forest Operations and Extension Specialist, Virginia Tech, Blacksburg, VA
- Chandler, Josh L. (MF) - Plant Manager, Speyside Bourbon Cooperage, Inc., Atkins, VA
- Cockram, Drew G. (MF) - Procurement Forester, WestRock Company, West Point, VA
- Conrad, Joseph L. (MF & PhD) - Associate Professor of Forest Operations, University of Georgia, Athens, GA
- Cook, Emily B. (MF) - Timber Strike Team Member, USDA Forest Service, Lexington, VA
- Cristan, Richie R. (PhD) - Assistant Professor of Forest Operations and Extension Specialist, Auburn University, Auburn, AL
- Dangle, Chandler L. (MS) - Environmental Scientist, Tetra Tech, Aiken, SC
- Dowling, Tripp N. (MS) - Assistant Wood Purchasing Manager, EGGER Group North America, Linwood, NC
- Fielding, Jonah A.H. (MF) - Area Forester, Virginia Department of Forestry, Charlottesville, VA
- Ford, Will S. (MF) - Integrated Training Area Management (ITAM) Coordinator, Virginia Department of Military Affairs, Ft. Pickett, VA
- Garren, Austin M. (MF & PhD) - Assistant Professor of Forestry, Black Hills State University, Spearfish, SD.
- Groover, Miles C. (MS) - Forester, Weyerhaeuser, Athens, GA
- Hanzelka, Nathan C. (MS) - Forest Carbon Analyst, Finite Carbon, Portland, OR
- Hawks, Brent S. (MF & PhD) - Forest Hydrologist, Weyerhaeuser, New Bern, NC
- Hawks, Eric M. (MF) - Procurement Forester, Georgia Pacific, LLC, Milledgeville, GA
- Knight, Carley R.D. (MFR) - Operations Forester, Domtar, Inc., Plymouth, NC
- Lang, Albert J. (MF & PhD) - Watershed and Conservation Staff Forester, North Carolina Forest Service, Raleigh, NC
- Lucas, Aaron C. (MFR) - Regional Sales Manager, McGuire Loading Docks, Greenville, SC
- Moldenhauer, Matthew C. (MFR) - Land Resource Manager, Charleston County Parks and Recreation, Charleston, SC
- Morris, Brian C. (PhD) - Webster Forest Nursery Manager, Washington Department of Natural Resources, Yacolt, WA
- Neaves, Charlie M. (MS) - Environmental Scientist, Wildlands Engineering, Raleigh, NC
- Roberts, E. Talcott (MF) - Forest Operations Research Technician, Department of Forest Resources and Environmental Conservation, Virginia Tech, Blacksburg, VA

- Sawyers, B. Clay (MF) - Forestry Research Manager, Reynolds Homestead Forest Resources Research Center, Critz, VA
- Wade, Charlie R. (MS) - Software Developer, RCX, Roanoke, VA

PRESENTATIONS AND POSTERS GIVEN AT PROFESSIONAL MEETINGS (X)

LAST FIVE YEARS -

- **Bolding, M.C.**, H.C.M. Bays*, P. DiGiacomo*, and J.L. Conrad, IV. 2023. Sustainability considerations and unique practices related to pellet feedstock harvesting. Invited presentation given at the 11th Annual US Industrial Pellet Association Conference. Miami Beach, FL. October 16-18, 2023.
- **Bolding, M.C.**, J.L. Conrad, IV, S. Kinz, and J.R. Segó*. 2023. Evaluating the effectiveness and implementation barriers of logistics software for managing forest businesses. In: 55th Annual International Symposium on Forestry Mechanization (FORMEC) and 7th Forest Engineering Conference (FEC). Florence, Italy. September 20-22, 2023.
- **Bolding, M.C.** and J.L. Conrad, IV. 2023. Challenges, opportunities, and critical innovations needed in the harvesting and transportation sector. Invited presentation given at the Innovation to Advance Market Driven Precision Forestry: Rayonier Research Strategy Meeting. Fernandina Beach, FL. September 13, 2023. 65 participants.
- **Bays, H.C.M.***, M.C. Bolding, J.L. Conrad, IV, A. Peduzzi, H.L. Munro, and S.M. Barrett. 2023. Assessing the sustainability of wood pellet feedstock harvesting from pine plantations in the U.S. South. Poster presented at the 2023 MidAtlantic Sustainable Biomass Consortium (MASBio) Annual Meeting; Penn State University, State College, PA. September 11-12, 2023.
- **Bolding, M.C.** and J.L. Conrad, IV. 2023. Evolution and development of forest harvesting systems in North America. Invited presentation given at the 19th Seminar on Wood Harvesting and Transportation Systems; Ribeirão Preto, São Paulo, Brazil; August 7, 2023.
- **Bolding, M.C.**, B. Bullock, H. Munro, S. Kinz, L. Paulus*, and J. Luyk*. 2023. Effect of machine traffic intensity from forest harvesting operations on soil compaction and forest productivity. Poster presented at the 2023 Plantation Management Research Cooperative Advisory Committee Meeting; Athens, GA. July 12-13, 2023.
- **Bolding, M.C.** 2023. Log truck transportation challenges and innovative solutions. Invited presentation given at the PotlachDeltic and WestRock Trained Logger Continuing Education Meeting. Phenix City, AL. June 22, 2023. 80 participants.
- Bays, H.C.M.*, **M.C. Bolding**, J.L. Conrad, IV, E.B. Schilling, A. Peduzzi, and S.M. Barrett. 2023. Sustainability of biomass harvesting in the U.S. South: A literature review. In: 45th Annual Council on Forest Engineering Meeting (COFE); International Conference on Forest Engineering-Forest Engineering Technologies. Flagstaff, Arizona. May 23-25, 2023.
- Knight, C.R.D.*, **M.C. Bolding**, J.L. Conrad, IV, and S.M. Barrett. 2023. Log truck transportation challenges and innovative solutions: evaluating the perspectives of truck drivers, logging business owners, and foresters. In: 45th Annual Council on Forest Engineering Meeting (COFE); International Conference on Forest Engineering-Forest Engineering Technologies. Flagstaff, Arizona. May 23-25, 2023.

- **Bolding, M.C.** 2023. Supply of log truck drivers. Invited presentation and panel member at the Southeastern Society of American Foresters Annual Meeting: Challenges and opportunities in the forest industry. Panama City Beach, FL. February 15-17, 2023.
- Anderson, N., J. Wang, **M.C. Bolding**, M. Eisenbies, D. Hartley, A. Helal, J. Liu, M. Thompson, T. Volk, and Y. Wei. 2022. MASBio Task 2: Developing the next generation of multi-feedstock biomass supply chains to advance the bioeconomy. North American Biochar Conference, Morgantown, West Virginia. August 8-11, 2022.
- Ciolkosz, D., T. Volk, **M.C. Bolding**, S. Grushecky, M. Marshall, and J. Wang. 2022. Regional design for senior engineering students. In: Proc. Northeast Agricultural and Biological Engineering Conference; Edgewood, Maryland. July 31-August 3, 2022.
- **Bolding, M.C.** 2022. Advancing forest logging residue harvesting and collection logistics in the lower mid-atlantic region. Presentation given at the Advancing Forest Logging Residue Harvesting and Collection Logistics in the Eastern United States Meeting in Morgantown, WV. July 21, 2022.
- **Bolding, M.C.** and E.B. Cook*. 2022. Logging machine value loss trends and supporting factors in the southeastern United States. Presentation given at the Southern Region Council on Forest Engineering Meeting in Clemson, SC. April 28, 2022.
- Hawks, B.S.*, **M.C. Bolding**, W.M. Aust, S.M. Barrett, E.B. Schilling, and S.P. Prisley. 2022. Annual clearcut area and sediment delivery estimates for three regions in the southeastern United States. Presentation given at the Southern Region Council on Forest Engineering Meeting in Clemson, SC. April 28, 2022.
- Hawks, B.S.*, W.M. Aust, **M.C. Bolding**, S.M. Barrett, E.B. Schilling, S.P. Prisley, J.A.H. Fielding*, and C.N. Horton*. 2022. Potential effects of forestry best management practices and implementation rates on soil and water resources in the southeastern United States. Invited presentation given at the Southern Group of State Foresters Water Resources Committee Winter Meeting in Austin, TX. March 3, 2022.
- Hawks, B.S.*, W.M. Aust, **M.C. Bolding**, S.M. Barrett, E.B. Schilling, J.A.H. Fielding*, and C.N. Horton*. 2021. Erosion and sediment mitigation by streamside management zones and harvest areas in Southeastern forests. Invited presentation given at the National Council for Air and Stream Improvement Annual Meeting (Virtual). September 16, 2021.
- Garren, A.M.*, **M.C. Bolding**, W.M. Aust, S.M. Barrett, and T.A. Coates. 2021. Evaluating the productivity and costs of five energywood harvesting operations in the lower mid-atlantic region of the U.S. In: Proc. 53rd Annual International Symposium on Forest Mechanization (FORMEC) and joint 43rd Annual Council on Forest Engineering Meeting (COFE); Virtual meeting hosted by Oregon State University; Corvallis, OR. September 27-30, 2021. In-person presentation given at Auburn University, Auburn, AL. August 3, 2021.
- Hawks, B.S.*, **M.C. Bolding**, W.M. Aust, S.M. Barrett, and J.A.H. Fielding. 2021. Forestry best management practice implementation and erosion rates by state and regulatory approach in the southeastern U.S. In: Proc. 53rd Annual International Symposium on Forest Mechanization (FORMEC) and joint 43rd Annual Council on Forest Engineering Meeting (COFE); Virtual meeting hosted by Oregon State University; Corvallis, OR. September 27-30, 2021. In-person presentation given at Auburn University, Auburn, AL. August 3, 2021.

- **Bolding, M.C.**, W.M. Aust, and S.M. Barrett. 2020. Harvest characteristics, estimated erosion, and BMP implementation across the southeastern US. Invited presentation given at the Sustainable Forestry Initiative Conservation Impact Sounding Board E-Workshop. June 23, 2020. 95 participants.
- **Bolding, M.C.** and R.W. Farrell. 2019. Examining the relationship between forestry best management practices and estimated erosion/sedimentations across the southeastern US. Invited joint presentation with the Virginia State Forester (Rob Farrell) at the Sustainable Forestry Initiative Annual Conference in Richmond, Virginia. October 24, 2019.
- **Bolding, M.C.** 2019. Conducting sustainable forest operations while minimizing environmental impacts: a compilation of research. *Keynote Presentation*. In: Proc. 52nd Annual International Symposium on Forest Mechanization (FORMEC) and joint 42nd Annual Council on Forest Engineering Meeting (COFE); Sopron, Hungary & Forchtenstein, Austria. October 6-9, 2019.
- Garren, A.M.*, **M.C. Bolding**, W.M. Aust, A.C. Moura, and S.M. Barrett. 2019. Soil disturbance from tethered forwarding on steep slopes in Brazil. In: Proc. 52nd Annual International Symposium on Forest Mechanization (FORMEC) and joint 42nd Annual Council on Forest Engineering Meeting (COFE); Sopron, Hungary & Forchtenstein, Austria. October 6-9, 2019.
- Quistorff, C.L.* and **M.C. Bolding**. 2019. Examining the relationship of forestry best management practices and estimated erosion rates across four physiographic regions. Invited presentation given at the Sustainable Forestry Initiative Sounding Board Meeting in Washington, D.C. April 9, 2019.
- Garren, A.M.*, **M.C. Bolding**, W.M. Aust, and S.M. Barrett. 2019. Soil disturbance effects from tethered forwarding on steep slopes in Brazilian Eucalyptus plantations. Poster presented at the 20th Biennial Southern Silvicultural Research Conference; Shreveport, LA. March 12-14, 2019.
- Hawks, B.S.*, C.L. Quistorff*, W.M. Aust, **M.C. Bolding**, S.M. Barrett, and A.J. Lang. 2019. Forestry best management practices and estimated erosion rates for roads, skid trails, and stream crossings in mountainous terrain. Presented at the 20th Biennial Southern Silvicultural Research Conference; Shreveport, LA. March 12-14, 2019.

OTHER ORAL PRESENTATIONS AND GUEST LECTURES (x)

LAST FIVE YEARS -

- **Bolding, M.C.** 2023. Minimizing site impacts from forest operations. Presented to the University of Georgia FORS 5720/7720 Forest Harvesting and Roads class. Athens, GA. November 6, 2023.
- **Bolding, M.C.** 2023. Alternative forest harvesting systems. Presented to the University of Georgia FORS 5720/7720 Forest Harvesting and Roads class. Athens, GA. August 28, 2023.
- **Bolding, M.C.** 2023. Academic programs and forest business focus at the University of Georgia. Presented to a Japanese delegation consisting of four forest products industry and government experts. University of Georgia, Athens, GA. June 9, 2023.
- **Bolding, M.C.** 2022. Academic programs and forest business research at the University of Georgia. Presented to the Forestry Research Institute of Sweden (Skogforsk). Uppsala Science Park, Uppsala, Sweden. December 15, 2022.

- **Bolding, M.C.** 2022. Using research to improve forest operations sustainability. Presented to the University of Georgia FORS 5720/7720 Forest Harvesting and Roads class. Athens, GA. October 26, 2022.
- **Bolding, M.C.** 2022. Minimizing site impacts from forest operations. Presented to the University of Georgia FORS 5720/7720 Forest Harvesting and Roads class. Athens, GA. October 12, 2022.
- **Bolding, M.C.** 2021. Forest fiber supply and procurement operations. Presented to the University of Montana FORS 341 Timber Harvesting and Roads class. February 24, 2021.
- **Bolding, M.C.** 2021. Introduction to forest operations and harvesting. Presented to the Virginia Tech FREC 2414 Field Experience in Forest Resources class. February 9, 2021.
- **Bolding, M.C.** 2020. Graduate mentoring and advising. Guest panelist along with Dr. Kevin McGuire for the Virginia Tech FREC 5014 Research Ethics and Integrity class. September 2, 2020.

INTERNATIONAL RESEARCH COLLABORATIONS AND ACTIVITIES

- Sweden – Skogforsk – The Forestry Research Institute of Sweden. Uppsala Science Park, Uppsala, Sweden. Invited to Skogforsk in both 2016 and 2022 to discuss potential bioenergy and environmental impacts research collaboration. In 2018, I hosted Dr. Lars Eliasson (Senior Researcher) and Dr. Magnus Thor (Director of Research and Innovation) on the VT campus to continue discussion of potential collaborative opportunities.
 - Invited to Sweden to serve as an Evaluation Committee Member for the PhD Defense of Sima Mohtashami entitled: “GIS-based Decision Support Systems to Minimize Soil Impacts in Logging Operations” on 12/16/22 at the Department of Forest Biomaterials and Technology, Swedish University of Agricultural Sciences (SLU), Uppsala, Sweden. SLU funded travel expenses and stipend.
 - Invited to Sweden to serve as an Opponent for the PhD Defense of Anders Eriksson entitled: “Improving the Efficiency of Forest Fuel Supply Chains” on 10/28/16 at the

Department of Energy and Technology, Swedish University of Agricultural Sciences (SLU), Uppsala, Sweden. SLU funded travel expenses and stipend.

- Italy – The Italian National Research Council Trees and Timber Institute (CNR-IVALSA). Sesto Fiorentino, Italy. Invited to CNR-IVALSA in 2016 to meet with Dr. Raffaele Spinelli and Dr. Natascia Magagnotti to discuss potential steep slope harvesting and bioenergy research collaboration.
- Brazil – Suzano Pulp and Paper. São Paulo, Brazil. Suzano joined the Forest Operations and Business Research Cooperative as an Associate Member in 2017. Invited to São José Dos Campos, São Paulo, Brazil in June 2017 and January 2018 to visit operations and discuss potential collaborative opportunities. Provided presentations during each visit on the status of forest operations research at Virginia Tech. Completed collaboration with Suzano on a research project entitled: “Assessing soil disturbance from tethered logging systems on slopes over 50% in Brazil”. The project was jointly funded by Suzano and John Deere Construction and Forestry and was the graduate program of Austin Garren (MF Student).
- New Zealand – The University of Canterbury. Christchurch, New Zealand. Invited by Dr. Rien Visser to collaborate on a research project entitled: “Used forestry machine price study: a comparison of New Zealand and U.S. values and characteristics”. The project is currently underway with assistance from one University of Canterbury and three Virginia Tech graduate students and will result in the submission of a peer-reviewed journal article.
- Collaborated on a research proposal submitted to the US Department of Education entitled “International education and exchanges: natural resources, climate change, mitigation, and adaptation.” This project sought to establish an educational consortium between Virginia Tech and the University of North Carolina at Wilmington for exchange with three Brazilian universities at the Universidade de São Paulo, one of Brazil’s premier universities, with Universidade Federal do Oeste do Pará and Universidade Federal do Amazonas, both in the heart of the Amazon, with support from the Instituto de Pesquisas e Estudos Florestais. This consortium sought to develop opportunities for students to learn about climate change mitigation and adaptation in diverse environments in the U.S. and Brazil.
- Frequent reviewer of research proposals and reports for WorkSafe BC, Research Secretariat, Workers Compensation Board of British Columbia, Canada.

PROFESSIONAL MEMBERSHIPS

- Council on Forest Engineering
- Society of American Foresters
- Georgia Forestry Association
- Xi Sigma Pi Honor Society

PROFESSIONAL RECOGNITION AND HONORS

- Virginia Tech Press Release. 2020. “\$10 million grant to foster new sustainable biomass research”. The article highlights biomass utilization research by **M.C. Bolding** funded by the USDA National Institute of Food and Agriculture. Featured in the Virginia Tech daily email on September 17, 2020, and distributed to several dozen media outlets and forestry professional associations and agencies.

https://vtnews.vt.edu/articles/2020/09/cnre-bolding-biomass-grant.html?utm_source=cmpgn_news&utm_medium=email&utm_campaign=vtUnirelNewsDailyCMP_091720-fs

- Virginia Tech Daily Video. 2019. Featured in a group of six videos entitled: “Solutions to help the environment”. The video entitled: “Becoming better stewards of the forest” highlights biomass utilization research by **M.C. Bolding** funded by the USDA Agriculture and Forestry Research Initiative. Featured in the Virginia Tech daily email on December 12, 2019. https://vtnews.vt.edu/campaign-videos/complex-environment.html?utm_source=cmpgn_news&utm_medium=email&utm_campaign=vtUnirelNewsDailyCMP_121219-fs1
- Virginia Tech Press Release. 2019. “Grant helps Virginia Tech scientists find new ways to utilize secondary logging materials”. The article highlights biomass utilization research by M.C. Bolding funded by the USDA Agriculture and Forestry Research Initiative. Featured in the Virginia Tech daily email on July 11, 2019, and distributed to several dozen media outlets and forestry professional associations and agencies. <https://vtnews.vt.edu/articles/2019/06/cnre-forest-residues-grant.html>
- Virginia Tech Homepage *Spotlight on Innovation* Article – “Fuel for the Future”. 2013. “Forest researchers seek economical ways to use wood waste for energy”. The article highlights biomass utilization research by **M.C. Bolding** and S.M. Barrett and is one of three features from the College of Natural Resources and Environment per year. Featured on the VT website during May, June, and July, 2013.
- 2012-2013 Outstanding Faculty Award, Department of Forest Resources and Environmental Conservation, Virginia Tech
- External Graduate Faculty Member, School of Forest Resources, University of Maine, Orono, ME. 2021 – 2026.
- Adjunct Assistant Professor, Department of Forestry and Environmental Conservation, Clemson University, Clemson, SC. 2008 – 2013.
- Adjunct Assistant Professor, Warnell School of Forestry and Natural Resources, University of Georgia, Athens, GA. 2008 – 2010.

EDITORSHIPS

- **Associate Editor** and member of the editorial board of the *International Journal of Forest Engineering*, published by the Forest Products Society in association with Taylor and Francis. February 2014 – Present.
- **Associate Editor** for the areas of Harvesting, Engineering, and Utilization and member of the editorial board of *Forest Science*, published by the Society of American Foresters. January 2014 – Present.

MANUSCRIPT REVIEWER

SERVICE AS AN OFFICER OF A PROFESSIONAL ASSOCIATION

- 2015-present Chair, Awards Committee, Council on Forest Engineering
- 2017-2018 Co-chairman of the Council on Forest Engineering
- 2007-2008 Chair, Keowee Chapter of the Society of American Foresters
- 2007-2008 Co-chairman of the Council on Forest Engineering
- 2007-2008 South Carolina Division of the Society of American Foresters Science and Technology Chair
- 2006-2007 Chair-Elect, Keowee Chapter of the Society of American Foresters

CONFERENCES AND WORKSHOPS HOSTED AND COORDINATED (4)

- 41st Annual Council on Forest Engineering Meeting. Hosted and co-chaired with Dr. Scott Barrett. Jointly edited the peer-reviewed proceedings (10 manuscripts) into a special issue of the *International Journal of Forest Engineering* entitled “Forest Engineering Innovations and Advancements”. The conference was held in Colonial Williamsburg, VA July 15-18, 2018 with the theme “Revolutionary Traditions, Innovative Industries”. Meeting attendance was 68 representing 7 countries (Brazil, Canada, Italy, New Zealand, South Africa, Sweden, and U.S.) and 21 U.S. states covering three full days with 53 presentations and a full day industrial field trip hosted by Enviva Biomass. Secured sponsorship of \$13,500 from Enviva Biomass, Suzano Pulp and Paper, Huber Engineered Woods, Council on Forest Engineering, John Deere, Virginia Tech Department of Forest Resources and Environmental Conservation, and IUFRO to support the meeting. Sixteen students were in attendance representing Laval University – Canada, Auburn University, Virginia Tech, University of Georgia, Northern Arizona University, University of Montana, West Virginia University, and University of Stellenbosch – South Africa.
- Symposium on Forestry Best Management Practice Effectiveness in the Eastern US. Co-sponsored by the National Council for Air and Stream Improvement, Inc. (NCASI), the Society of American Foresters, and Virginia Tech. The conference was held at the Inn at Virginia Tech and Skelton Conference Center May 12-15, 2014. Meeting attendance was approximately 125 with 40 invited and volunteered technical presentations. A full day field trip was coordinated and hosted at the Reynolds Homestead Forest Resources Research Center in Critz, VA.
- 31st Annual Council on Forest Engineering Meeting. Co-hosted and edited the proceedings of this meeting with Dr. Dale Greene at the University of Georgia. The conference was held in Charleston, SC June 22-25, 2008. Meeting attendance was approximately 80 representing 8 countries with 36 paper presentations and 10 poster presentations.
- 2007 Sale Area Layout and Harvesting Institute (SALHI-East). Organized and hosted 3-weeks of this 5-week training for 30 USDA Forest Service employees. Funding secured: \$44,366.

EFFORTS TO PROMOTE DIVERSITY

- Co-PI on a 5-year research grant secured from the USDA Food and Agricultural Sciences National Needs Graduate Fellowship Program entitled “Inclusive excellence in forestry graduate programs at Virginia Tech” that funded 4 graduate student assistantships (2 MS and 2 PhD). These students were citizens of the United States and either first generation college students (neither parent has a college degree), women, or minorities. The students conducted research in the areas of climate change, water, and biomass/bioenergy and were housed in the Department of Forest Resources and Environmental Conservation.
- Faculty Scholar, Inclusive Excellence at Virginia Tech (2019-2021) – one of a three-member Department of Forest Resources and Environmental Conservation faculty cohort. The purpose of the program, funded by the Howard Hughes Medical Institute, is to implement, assess, and improve the learning environments for students from underrepresented groups at Virginia Tech.
- Spring 2020 and 2021. Organized and lead a reading group with other Howard Hughes Medical Institute Inclusive Pedagogy faculty and student scholars to discuss diversity and inclusion in higher education.

RECOGNITION AND AWARDS FOR OUTREACH AND EXTENSION EFFECTIVENESS

- Forest Resources Association Appalachian Region 2014 Technical Writing Award 1st Place (Plaque and \$100). Technical Release 14-R-11, “Skid Trail Stabilization Research and Logger Training”. Authors: **M.C. Bolding**, W.M. Aust, and S.M. Barrett.
- Southern Regional Extension Forestry 2013 Awards for Excellence - Bronze Award for Extension Publication. “Forest Harvesting in Virginia: Characteristics of Virginia’s Logging Operations”. Authors: S.M. Barrett, J. Chandler, **M.C. Bolding**, and J.F. Munsell.
- Southern Regional Extension Forestry 2011 Awards for Excellence - Silver Award for National/International Project. “Wood Bioenergy Assessments in Support of Department of Energy’s Federal Energy Management Program”. Authors: J.F. Munsell, J.P. Ignosh, and **M.C. Bolding**.
- Southern Regional Extension Forestry 2011 Awards for Excellence - Gold Award for Journal Publication. “Virginia SHARP Logger Survey: Characteristics of Virginia’s Logging Businesses”. Authors: S.M. Barrett*, **M.C. Bolding**, and J.F. Munsell.
- Forest Resources Association Appalachian Region 2010 Technical Writing Award 2nd Place (Plaque and \$50). Technical Release 09-R-30, “Trucking Safety/Efficiency Manual as Continuing Ed Resource”. Authors: **M.C. Bolding**, T.N. Dowling*, and S.M. Barrett*.
- Forest Resources Association Appalachian Region 2010 Technical Writing Award 3rd Place (Plaque and \$25). Technical Release 10-R-11, “Loggers’ Willingness to Adapt to Biomass Harvesting”. Authors: S.M. Barrett*, **M.C. Bolding**, and J.F. Munsell.

UNIVERSITY SERVICE

- University Promotion and Tenure Committee (College of Natural Resources and Environment Representative), *Service*: 2021-2022
 - Responsible for university-wide deliberation and voting on promotion and tenure candidates and non-voting member participation in college-level deliberations
- Virginia Tech Faculty Review Committee (College of Natural Resources and Environment Representative), *Service*: 2021-2022

- Peer Reviewer, Virginia Tech Office of Institutional Effectiveness Academic Program Review of the Department of Sustainable Biomaterials, *Service*: Spring 2021
- Virginia Tech Pathways General Education Curriculum Review Committee (College of Natural Resources and Environment Representative), *Service*: 9/1/2020 – 5/10/2021
- Virginia Tech University Council (College of Natural Resources and Environment Representative), *Service*: 2020
- Virginia Tech Pathways Ad Hoc Review Committee (College of Natural Resources and Environment Representative), *Service*: 10/1/2019 – 5/10/2020
- Virginia Tech University Libraries' Dean's (Tyler Walters) Advisory Committee, *Service*: 2014-present
- Virginia Tech Commission on Graduate and Professional Studies and Policies (CGPSP) (College of Natural Resources and Environment Representative), *Service*: Spring 2021, 2012-2015
 - Member, Degree Requirements, Standards, Criteria, and Academic Progress (DRSCAP) CGS&P Sub-committee; 2012-2013
 - Member, Graduate Honor System Appeal CGS&P Sub-committee (Three appeals heard; 11/12/12, 11/29/12, 09/18/13)
- Virginia Tech Graduate Curriculum Committee (College of Natural Resources and Environment Representative), *Service*: 2012
- Virginia Tech Academic Support Committee (College of Natural Resources and Environment Representative), *Service*: 2009-2012; 2018-2022
- Assistant Commencement Marshall, Virginia Tech Undergraduate Ceremony, *Service*: Spring 2009

SCHOOL/COLLEGE SERVICE

- Warnell Faculty Search Committee, Director of the Harley Langdale Jr. Center for Forest Business, *Service*: Fall 2023-Spring 2024
- Warnell Dean Search and Screening Committee Member, *Service*: Fall 2023-Spring 2024.
- Warnell Alumni Reception, Faculty Guest Speaker, Peachtree City, GA. March 28, 2023.
- Warnell Faculty Search Committee Co-chair, Assistant/Associate/Professor of Forest Finance, *Service*: Spring 2023
- Warnell Post Tenure Review/Graduate Program Faculty Renewal Committee Member, *Service*: 2023
- Warnell Administrative Committee, *Service*: 2022-2023, 2023-2024
- Warnell Faculty Search Committee, Assistant Professor of Silviculture, *Service*: Fall 2022
- CNRE Young Alumni Award Selection Committee, *Service*: Spring 2021
- CNRE Student Policy and Affairs Committee, *Service*: 2015-2016

DEPARTMENTAL SERVICE

- Chair, Department Head Comprehensive 5-year Review Committee, Fall 2021
 - Chosen by the CNRE Dean to conduct a review of the role and responsibilities of the FREC Department Head and how he carries out his duties and leads the department. The review required the construction of a diverse faculty and staff review committee, development and implementation of a survey instrument as well as faculty, staff, and outside stakeholder input meetings with the committee. The review was developmental,

as well as summative and culminated in a report to the Dean designed to help both the administrator and the department develop and improve.

- Peer Evaluation of Teaching
 - Fall 2020 - FREC 2514 Wildland Fire: Ecology and Management taught by Dr. Adam Coates. Evaluation was conducted jointly with Dr. Mike Aust.
 - Spring 2018 - FREC 4444 Integrated Forest Management Practicum taught by Dr. Scott Barrett. Evaluation was conducted jointly with Dr. Mike Aust.
- FREC Departmental Lab Planning Liaison, Summer & Fall 2020
 - Served as faculty representative liaison to the Provost's office for planning Fall 2020 laboratory instruction procedures
- FREC Facilities Committee, *Service*: 2015-2017, 2020-2022
- FREC Undergraduate Affairs Committee, *Service*: 2014-2016
- FREC Graduate Affairs Committee, *Service*: 2010-2011 (Chair); 2011-2012
- FREC Budget and Planning Committee, *Service*: 2009-2011; 2013-2014; 2014-2015 (Chair); 2019-2021
- FREC Ad Hoc Field Skills Course Development Committee, *Service*: 2009
- Supervised (100%) and completed performance evaluations and outcomes for a full-time research technician in the Department of Forest Resources and Environmental Conservation (09/01/14 – 06/01/22)
- Co-supervised (50%) one full-time research technician in the Department of Forest Resources and Environmental Conservation (08/10/08 - 08/31/14)

COURSE REVISION AND CURRICULUM CHANGES

- I worked with other faculty to revise the Forestry BS option of Industrial Forestry Operations into a new option named Forest Operations and Business. The name change and new focus on business has allowed us to attract more students and become more relevant to our stakeholders.
- I served on a departmental Ad Hoc committee who was charged with developing a new field skills course and tour to replace the past Spring Camp course structure. The work of this committee was one of the most significant curriculum changes in the program's history.

FREC 3344 Forest Field Studies

- This course was restructured into a 5-day field course including a combination of field exercises and tour/discussion of forest operations throughout the Piedmont and Coastal Plain of Virginia.

FREC 3734 Timber Procurement

- This course was re-organized to include 7-8 guest speakers representing a variety of forest industry approaches to wood procurement. The course also utilizes two full-day field trips that culminate in an inventory and case study evaluation of a timber tract for sale. Students work in groups to inventory, analyze, and prepare mock bids that are compared against the actual timber sale value provided by a cooperating procurement forester.

FREC 4714 Harvesting Systems Evaluation

- After not being offered for several years, I reorganized the course to focus on advanced harvesting systems, environmental impacts, business decisions, and engineering economic analysis. Two full-day field trips were added to give students more exposure to harvesting

systems and analysis techniques throughout Virginia. These trips are used to perform detailed harvesting productivity and cost studies on representative operations in both the Mountain and Piedmont regions. Students then prepare and present final group reports to the class in both written and oral formats.

FREC 5714G Advanced Harvesting Systems Evaluation

- I completed the process of adding a graduate conjoint counterpart to FREC 4714 Harvesting Systems Evaluation which is named FREC 5714G Advanced Harvesting Systems Evaluation. The course was taught for the first time in Spring 2010 and allows me to offer advanced forest operations instruction to graduate students.

FREC 3734 Forest Fiber Supply

- This course was developed (Spring 2020) by combining FREC 3734 Timber Procurement (2-hrs) and FREC 3344 Forest Field studies (1-hr) into a new 3 credit hour course. The course was also submitted and approved by the Pathways general education program as an advanced discourse class. This allows FREC students the opportunity to complete both disciplinary and general education degree requirements by taking the course.

FREC/NR: 4004 Professional Skills in Natural Resources

- This course (1-hr) was developed (Fall 2020) as a result of participating in the Howard Hughes Medical Institute Inclusive Excellence Grant. Along with colleagues Dr. John Seiler and Dr. Adam Coates the course was developed to improve the professional skills of seniors in the fall semester of their final year. Guest speakers from academics, industry, and government provide instruction on elements of professionalism and principles of success across a wide spectrum of natural resources careers. The course covers skills for effective and ethical professional interaction including written and oral communication, advancement of diversity and inclusion, and personal responsibility. Career preparation principles including employer outreach, job seeking, resume writing, and interview preparation are taught.
